SUMMARY

- HTML5, CSS3, SVG;
- JavaScript (ES6) / TypeScript;
- React / Redux / Next.js;
- Redux-Saga / Redux-Thunk;
- Jest + Enzyme for testing
- Using modern front-end features of ES6 and CSS3;
- Advanced responsive layouts;
- CSS and JS based animations;
- CSS-preprocessors: Sass, Stylus, Less;
- HTML-preprocessors: Handlebars, Nunjucks, Pug;
- Git, Subversion;
- npm, Docker, Webpack, Gulp;
- Jira, Confluence, Redmine.

Last 3+ years developing user interfaces with React / Redux. Have a lot of experience with UI/UX development including complex animations.

Interested in:

- Improving myself as a React developer
- Work on modern web-apps and SPAs
- Usage of cutting edge technologies
- Willing to move to full-stack direction (Node.js + React)
