SUMMARY

- Excellent knowledge of HTML5, CSS3;
- JavaScript (native, and with usage of jQuery, jQueryUI);
- ES 2015 (basic knowledge);
- Bootstrap and other similar grid systems;
- Responsive layout (without usage of frameworks);
- Float, Flexbox and Grid based layouts;
- CSS3-animations and transitions;
- SCSS (Sass) + Compass, sometimes Susy;
- Pug (HTML-preprocessor);
- Git;
- npm, Bower, Webpack.
- English level: Intermediate;
- SQL, Python (basic level);

Most of my knowledge in the Front-end direction I acquired through self-study. I am constantly learning something new and improve my skills and knowledge. I try not to scatter on everything, and deepen the existing knowledge.
